

Join Us!

Your participation on the Advisory Council will ensure we have broad and inclusive representation from all stakeholders. Members will outline the recommended parameters for increasing access to quality pre-k. Your recommendations will capture the vision, core values and desired elements of the approach Santa Cruz County will take to deliver preschool to our young children.

Responsibilities of the Advisory Council include attending 3 Meetings:

September 25th	5:30 -7:30pm Sesnon House, Aptos
February 12th	5:30 -7:30 pm Santa Cruz County Office of Education
April 16th	5:30-7:30pm (place to be determined)

Members will benefit from the expertise of multiple workgroups covering content areas of Finance and Facilities, Workforce and Quality Standards, Data and Prioritization, Parental Participation and Articulation from Preschool to K-3.

Please note that regardless of whether you participate or not on the Advisory Council, there will be other avenues for input and involvement in the planning process. There will be monthly workgroups, input sessions, surveys and on-line documentation of the progress we are making to ensure all children have opportunities to attend a quality preschool and are well prepared to succeed in school.

Your time, energy and expertise will guide the process to produce the best possible plan for our community. If you are interested please contact:

Carole Mulford
Child Development Program Manager
